

Dark Star Merch Mug Template

The **GREEN** corner crop marks are used by us for alignment in our master template and are the external markers for the print area. Do not move or edit these.
The **MAGENTA** centre area and line guides are where you should place your image(s).

1. **YOU MUST DELETE / TURN OFF THE MAGENTA GUIDELINES** layer once you artwork has been placed here *BEFORE* you 'save as' the file to send to us.
2. Please save your file as .pdf or .jpg or transparent .png (if being used on a black mug).
3. Your finished file should only contain your artwork image(s) and the **GREEN** corner crop marks - no magenta lines or this text. You artwork program should allow you to do a 'save selected' option, or you can turn off layers 2 and 3.
